CAS for Recovery DRO Level 3

Training Details

Training Type: Video
Provider: Disaster Cycle Services
Version: 1.0
Training Hours: 0 Hours 14 Min
Description:

CAS for Recovery DRO Level 3 is a **14 minute, basic level, web-based training that can be viewed as a video in EDGE or via YouTube.** Participants are encouraged to take the course in EDGE so that its completion will be reflected on their training transcript.

The YouTube video can be used in one of the two following scenarios:

- When viewed by participants who have no need to track completion (such as partners or those without EDGE accounts)
- When delivered as just-in-time training (when a worker is about to deploy to a DR, has just arrived on a DR, or simply wishes to view as a refresher training)

The purpose of this course is to support *Recovery Procedures DRO Level 3* by explaining and showing the Disaster Relief Operation level 3 steps to document the client interview, client qualifications and immediate assistance in CAS 2.0 to support immediate needs and follow-up recovery planning.

NOTE: To receive credit for this course, learners must click the *Mark Complete* button on their transcript.

Status: Completed
Due Date: None
