PROFESSIONAL EXPERIENCE

Instructional Technologist

Namon Online High School | Providence, RI | 2020 - Present

High school based in Providence serving grade 9-12 students across the northeast. All programs offered by school are online.

- Integrate new 9th grade science curriculum into online portal. Created media, lesson plans, and forums for use by over 200 students to complete learning objectives.
- Collaborate on the development of mobile website and applications for use on tablets provided to students by school. Redesign existing areas of the student portal to be suitable for use on mobile devices.
- Obtain feedback from instructors on performance of website. Used feedback to debug and enhance online resources for incoming students.
- Update 14 course websites with new materials supplied by instructors before beginning of term.
- Provide recommendations to instructors on enhancements to increase student engagement or understanding of topics.

Instructional Technology Assistant (Part-Time)

Lily Middle School | Providence, RI | 2016 - 2020

Worked 20 hours per week at local middle school while completing online master's degree. Served under the school's director of instructional technology.

- Maintained student software and portal, making regular updates as requested by instructors.
- Set up 40 new iPads with instructional software and resources, as part of a school district initiative to encourage mobile learning.
